

Fiberglass Stepladder # 775568.

6' Keller ladder, economical for home owners and painters, good for any project. Type II commercial duty rating 225 lb. Meets ANSI and OSHA standards.

Electrician's Fiberglass Ladder. 6 foot # OBEL-06 8 foot # OBEL-08

This ladder is designed with the electrician in mind. The JobStation tool tray has a place for the hand tools such as 10" channellock pliers, 2X screwdrivers, 9" side cutters, wire stripper, and small parts tray/utility holder. The tool top also features a conduit groove and scale with 1/8" increments for quick measurements and marking up to 3 different sizes of pipe 1/2", 3/4", and 1". The groove keeps pipes from falling off the top and reduces trips up and down the ladder. The ladder also features the ToolLasso bungee system which wraps around just about anything such as drills and tape measures. It securely mounts tools and equipment always within reach. Another feature on the JobStation is the integrated conduit holder that clamps pipe against the ladder rail for convenient, safe, and fast pipe cutting up to 1" pipe. It also offers a quick-draw access to a hacksaw, where its needed, when its needed. The JobStation also provides the integrated wire spool holder so there is no need for a separate wire caddy. ANSI tested at the duty rating of T-1AA 375 lb.

Plumbers Workstation, 6 Ft # OBPT-06 8 Ft # OBPT-08

PipeFit(R) Stepladder, Ladder Height 6 Ft, Number of Steps 5, Platform height 72 In, Platform Width 23 3/8 In, Base Spread 41 1/4 In, Step Width 3 In, Traction Tread, Load Capacity 375 Lb, Fiber Glass, ANSI Type 1AA, Includes Job Top, Tool Lasso(TM) System, Pipe Holder, Multi-Use Hook, Sheet Metal Strap Bender

Contractors Workstation, Extra Heavy Duty, 6 Ft # OBCN-06

Stepladder, Extra Heavy Duty, Ladder Height 6 Ft, Number of Steps 5, Bottom Width 23 3/8 In, Base Spread 41 1/4 In, Step Width 3 In, Non Slip Tread, Load Capacity 375 Lb, Fiberglass, ANSI Type IAA, Includes MagnaGrip and Tool Lasso Sockets
